

Ingersoll Rand Forklift Parts

Providing products, solutions and services to increase the productivity and to ensure efficiency in industrial, commercial and residential surroundings, Ingersoll Rand is very proud provider of products which help enhance the health, safety, comfort and security of individuals all over the world.

From their Climate Solutions division comes a product line of energy efficient HVACR solutions. The Thermo King is the leading transport temperature control, while Hussman makes refrigeration and food merchandising solutions. Trane is a trusted provider of energy efficient heating ventilation and air conditioning systems, building and contracting services, parts support and advanced controls for both commercial buildings and residential homes.

Ingersoll Rand's Industrial Technologies division provides products and solutions that enhance their clients' energy efficiency, productivity and operations. The product range is diverse ranging from tools and pumps, fluid and material handling systems to complete compressed air systems. They have also developed Club Car, the global leader in golf and utility vehicles designed for people and companies.

Well-known trade names such as Schlage and Trane compromise the Residential Solutions business, delivering safety, efficiency and comfort to home owners all around North America. Several of their innovative quality products include electronic and mechanical locks, indoor air quality solutions, heating and air conditioning systems, portable security systems, advanced controls and remote home management.

The division comprising Security Technologies provides products which ensure productive, secure and safe environments. This division's market leading products consist of door and floor closers, exit devices, portable security devices, electronic and biometric access control systems, cabinet hardware, steel locks, doors and frames, locksets and decorative hardware. Schlage likewise has products which offer personal, time and attendance scheduling systems.
