

Hyundai Forklift Parts

Since the year 1985, Hyundai Heavy Industries has been supplying and manufacturing various sorts of construction equipment including: wheel loaders, skid steer loaders, excavators and forklifts. The heavy industry division operates a very effective product-supply system. This system is powered by zero-tolerance policy, perfect quality control and among the most advanced automatic production lines.

Led by a group of 477 distributors in 110 international locations, construction equipment has been introduced into the rising markets of Central and South America, Russia, the Middle East and Africa. Local Hyundai subsidiaries have been created in the USA, Europe, India, and China.

The Construction Equipment Division within Hyundai Heavy Industries strives to fulfill and surpass all their client's expectations by building dependable and efficient tools and offering outstanding after sales service. Customer service is further maintained by their commitment to deliver service parts in a timely method to be able to reduce all of their customer's "downtime." Hyundai even welcomes buyer suggestions to be able to project their customers' requirements and market requirements onto product development, sales policies and production. Hyundai easily competes with the different leading brands within the industry.

Hyundai Heavy Industries sincerely appreciates their customers. The company is strongly dedicated to constantly better their service and merchandise even further. All the company's managers and workers attempt to maintain this reality with the greatest dedication in their products and assistance. Amongst their fundamental objectives is to be able to help make their customers' business much more prosperous.
