

Meritor Parts

The Meritor Business is a leading global dealer founded upon 100 years of custom of service and quality. Meritor specializes in integrated systems with several modules and components to the original equipment manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor values the requirements of their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred people, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

By only hiring future focused staff, Meritor strongly feels these top-caliber people would be able to quickly adapt to changing surroundings and demonstrate the performance and commitment required so as to attain results in the competitive materials handling business. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides all of their staff different chances for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of their international engineering employees.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all around the world in 19 nations and in 5 different continents.

The supplier development network is particularly located to be able to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each part of the trade. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business methods and implement lean methods.
