

Concrete Hoppers

This attachment is a self-dumping hopper which automatically starts to dump as bumper release touches the side of a dumpster. Once dumping is done, the hopper returns to a locked and upright position. This particular piece of machinery is likewise existing along with a cable which enables operation from the seat of the forklift to be able to have the alternative of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This particular product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish in order to maintain durability.
